

MEADOWVALE AUTO REPAIR

1705 Argentia Rd, Unit 14 - Mississauga, On (905) 821-4992

| DATE OFFERED | COURSE TITLE | COURSE DESCRIPTION |
|--|--|--|
| <p>Wednesday, Oct 29/14</p> <p>6:30 pm start (dinner included)</p> | <p>Testing Variable Timing</p> | <p>Almost all vehicle produced today offer some type of variable Valve Timing control. In this class we will cover the fundamentals of operation of the camshaft phaser assembly and the oil control solenoid as well as the computer control systems and scan data. Then a series of case studies will be used to highlight how to properly pinpoint failures. The focus of this class is identifying concerns quickly and accurately and is a must for driveability technicians.</p> |
| <p>Wednesday, Dec 3/14</p> <p>6:30 pm start (dinner included)</p> | <p>Continuously Variable Transmissions</p> | <p>CVT's are becoming increasingly popular in both Hybrid and non-Hybrid vehicles. This class looks at popular models from Dodge, Ford and Toyota. Class will include system operation and diagnosis. This class will look at both belt drive and planetary gear types of CVT's This class is designed with non-transmission shop technicians in mind. At the completion of the class the technician will be able to determine if the transmission can be repaired in house or must be removed for rebuilding or replacement.</p> |
| <p>Wednesday, Jan 21/15</p> <p>Night 1 of 2</p> <p>6:30 pm start (dinner included)</p> | <p>Developing a Game Plan For Problem Vehicles</p> | <p>From time to time we all have cars that give us trouble identifying the problem. When we run into these cars we need a game plan that goes beyond the service manual. This course teaches how to develop a plan of attack. Then the class will work through a series of problem vehicles which will allow the technicians to develop and modify the game plan to suit each different situation. Different systems will be used making this class ideal for all technicians.</p> |
| <p>Wednesday, Feb 18/15</p> <p>Night 2 of 2</p> <p>6:30 pm start (dinner included)</p> | <p>This is a two night course you MUST attend both nights</p> | |
| <p>Wednesday, Apr 29/15</p> <p>6:30 pm start (dinner included)</p> | <p>Troubleshooting Network Concerns</p> | <p>Scan tool won't communicate, U codes, module not communicating, all of these are symptoms of network problems. This class will cover how to categorize the type network failure and then troubleshoot the problem. Several strategies will be discussed on how to properly diagnose a single module problem, none of the modules are communicating and modules are setting U codes. Case studies will also be used in this class to highlight said procedures.</p> |
